

SNATCHEDBYCHRISTIANABERBIE

The Digital Fashion Experience Platform

A bespoke, AI-powered platform that turns your brand into a digitally enabled fashion house — built for visibility, conversion, and lasting client loyalty.

A website is no longer enough

In 2026, fashion customers expect convenience, personalization, and a premium digital journey — not just an online catalogue.

Calls & WhatsApp chats

Customers wait for replies, many simply give up.

Manual booking books

Appointments clash, staff lose hours coordinating.

Paper measurement records

Lost sheets lead to costly fitting errors.

No digital relationship

Brands depend entirely on social algorithms.

POSITIONING

Not a website. A Fashion Experience Platform.

It combines AI styling, persistent measurement profiles, custom outfit configuration, digital wardrobes, production tracking, and premium client experiences — serving both your customers and your business operations.

- ✓ Increase visibility
- ✓ Convert visitors into customers
- ✓ Book consultations seamlessly
- ✓ Build customer loyalty
- ✓ Generate recurring revenue
- ✓ Automate business operations

Built around the full client journey

Smart Booking

24/7 appointment booking with reminders
& calendar sync

AI Stylist

Personalised outfit, colour & accessory
recommendations

Measurement Profiles

Saved measurements & AI-estimated sizing
from photos

Custom Outfit Builder

Live-preview fabric, colour & style
configuration

Client Dashboard

Orders, invoices, wishlist, loyalty in one
place

Order Tracking

Amazon-style visibility from cutting to
delivery

Membership Club

VIP perks, private collections, early access

Digital Wardrobe

Every purchase stored with care & reorder
history

The AI Stylist — your most shareable feature

A customer types: “I have a wedding next Saturday.” The AI instantly recommends dresses, shoes, bags, accessories, colours, hairstyles and makeup — or, better still, the customer uploads a photo and receives a fully styled look in seconds.

Virtual Try-On

Preview dresses, suits & accessories on an uploaded photo

Smart Measurement

AI estimates body measurements from 3 simple photos

Occasion Planner

Select an event; AI recommends the full outfit

ASK THE STYLIST

“I have a wedding next Saturday — navy theme, outdoor evening reception.”

- ✓ Navy silk gown
- ✓ Gold strap heels
- ✓ Clutch bag
- ✓ Soft curls + gold tones

[View full recommended look →](#)

Every client gets a personal atelier, online

Client Dashboard

Appointments, measurements, orders, invoices, wishlist and loyalty points — all in one home.

Membership Club

VIP members enjoy priority booking, private collections, birthday gifts and personal stylist sessions.

Digital Wardrobe

Every purchased outfit stored with occasion history, care instructions and one-tap reorder.

A complete back office for your team

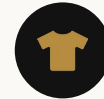

Calendar-view appointment management

Customer relationship management (CRM)

Orders & production workflow

Fabric inventory & collection management

Email, SMS & WhatsApp marketing

Analytics, sales & staff performance reports

Real-time dashboards reveal best-selling designs, top customers, conversion rate, and marketing ROI — smarter decisions, every day.

More revenue, around the clock

24/7

Booking & sales never close — revenue beyond store hours

Global

Virtual consultations & international payments reach diaspora clients

Fewer

No-shows, thanks to automated SMS, email & WhatsApp reminders

Online booking also raises conversion: confirmed instantly, 24/7, with far less staff coordination time.

Lower costs. Higher loyalty.

Less admin work

Automation handles scheduling, reminders & record-keeping

Higher retention

Loyalty rewards, VIP access & digital wardrobe history

Fewer measurement errors

Centralised profiles cut costly alteration mistakes

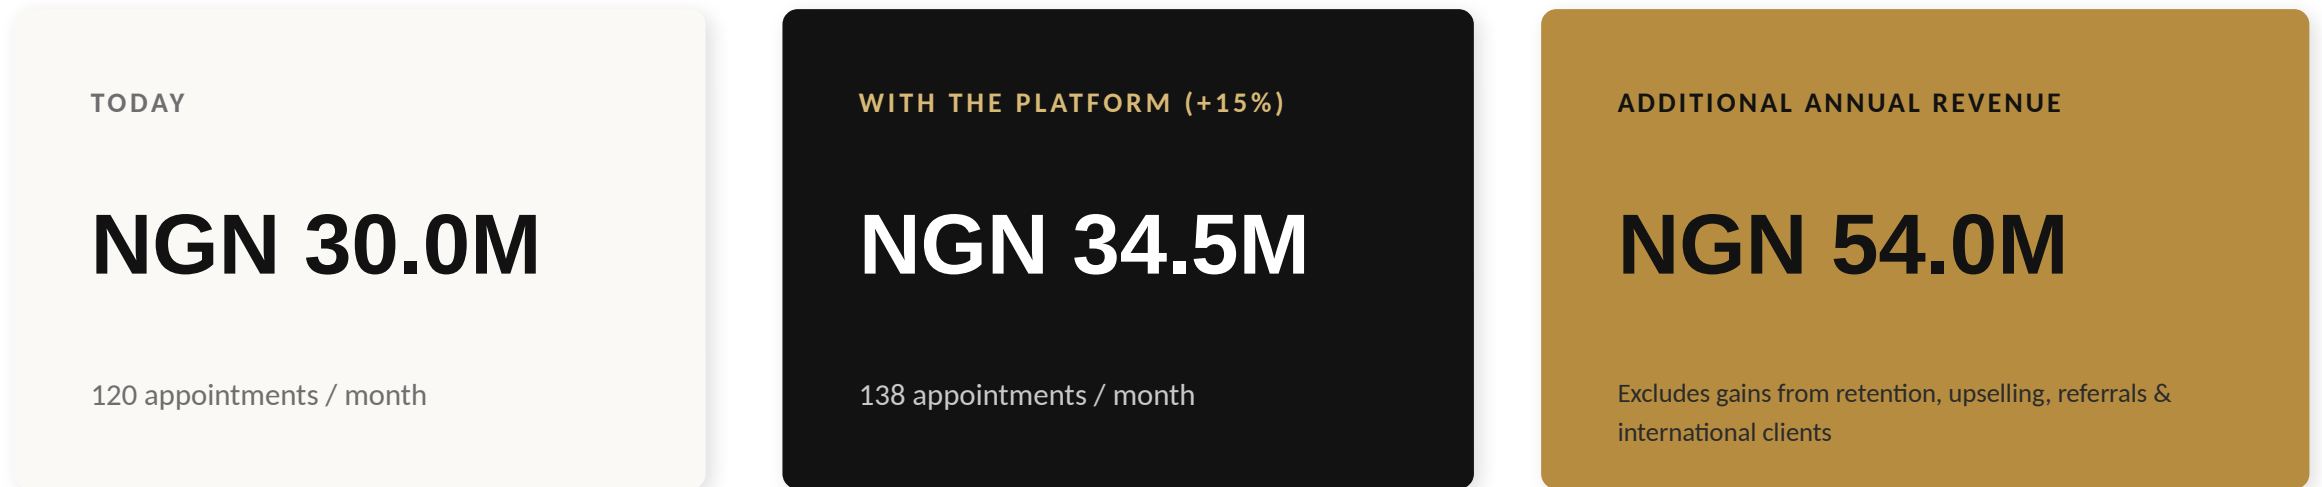

Higher lifetime value

Personalised recommendations drive repeat purchases

What a modest lift in bookings could mean

Based on a brand currently serving 120 appointments/month at an average order value of NGN 250,000:

Illustrative example for discussion purposes — final projections will be modelled on your brand's actual figures.

Consumer expectations are rising fast

Discover brands online before ever visiting a store

Book services instantly, any time of day

Expect personalised recommendations, not generic catalogues

Track orders in real time, the way they track parcels

Engage with brands across multiple digital channels

MOST BRANDS STILL RELY ON

- WhatsApp chats
- Excel spreadsheets
- Manual appointment books
- Paper measurement records

A digital platform positions your brand as the industry leader — not a follower.

INVESTMENT

What it takes to bring this to life

DESIGN & DEVELOPMENT

NGN 450,000

One-time build cost — platform design, development & setup

DOMAIN & HOSTING

NGN 150,000

Recurring — billed annually to keep the platform live

MODE OF PAYMENT

70%

Paid upfront to commence design & development

30%

Paid upon completion & delivery of the platform

LET'S BUILD IT

A strategic asset — not just another technology project.

Automation, premium client experiences, and data-driven decisions — helping your brand attract more clients, operate more efficiently, and grow sustainably.

Let's discuss your roadmap
